Goatee Beach

Goatee Beach provides an excellent lunching spot for hungry cyclists, with picnic benches, a view of Southampton water and a large field - ideal for playing games!

This easy to follow route is great for both Cubs and older Scouts alike. Tarmac lanes make for easy cycling, and with all major roads covered by cycle lane crossings. Once at Eling, there are various points of interest, such as the Saint Mary the Virgin Church, Eling Tide Mill and a great lunching spot on Goatee Beach!

Group bookings
The mill is happy to accept bookings from groups (including schools for all ages). Pre-booked groups of ten or more may have a full guided tour around the Mill (tours last approx one hour, however, we can tailor this to your own parties requirements). There is of course the benefit of a reduced price for parties over 10. Please also check Milling times to ensure we are milling during your visit.
Please contact the mill by phone on 023 8086 9575

Eling Tide Mill
There has been a mill on this site for 901 years. The mill was abandoned in the 1940's, however was lovingly restored between 1975 - 1980. It is now one of the only fully working and productive tide mills in the UK.

The Church Saint Mary the Virgin Eling

Eling Church on Eling Hill dates back to Saxon Days, although the original Church would probably have been a wooded structure. There are still small areas of the Norman Church visible, but much restoration work was carried out by Benjamin Ferrey in 1863 to 1865 which covered much of the older building.

In the Church is an Altar painting of the Last Supper in the style of Leonardo da Vinci.

Toll Bridge

Walk through reed beds.
